Skills

Languages

- C#, Java
- Basic: C++, Python

Tools

- VS2013
- Eclipse/IntelliJ
- Build/SCM Tools
- Code Quality Tools

Platforms

- Windows
- Android
- iOS (basic level)

Courses

- Unit Testing
- Advanced Debugging
- Advanced .NET
- Design Patterns
- [Cryptography](#)
- [Scala](#)

Introduction

I'm a software engineer, experienced in **C#**: I have firm knowledge in tools, frameworks and methodologies of the **.NET** world and I'm very passionate about software development and technology in general. I love learning new things and always strive to push my knowledge and professional skillset to the next level.

Looking for a challenging role to apply my current skills and to grow and learn.

Work Experience

Software Engineer

2013 – 2014

PlayScape

- Developed a mobile game-development platform consisting of an IDE, simulator, compiler and backend services (**C#, WinForms, Web API**), powering the company's and its partners' **Android & iOS** mobile titles.
- Lead 2 large scale projects, from their initial design phase to implementation:
 - Development of a high-performing, real-time multiplayer layer integrated into the game engine (using Photon Cloud, JNI, Android NDK).
 - Development of an ads management system (integrating multiple mobile ad vendor SDKs: MoPub, Chartboost, Vungle)

Software Engineer

2011 – 2013

Verint Systems

- Developed a suite of tools and frameworks (**C#, WinForms, WCF**) used by dev/QA teams for automation and simulation of business tasks across the company's product suite.
- Introduced, Installed and administrated new tools such as CI, automated deployment and automated build processes to the team.

QA/Automation Engineer

2009 - 2011

Verint Systems

- Tested various deliverables (patches, HFRs, and service packs) for release.
- Setup of complex test environments (VM and physical) and telephony equipment.
- Developed testing scripts & custom tools (**C#**) that greatly reduced testing efforts

QA Engineer

2007 – 2009

SupportSpace

- Performed manual testing of a Java based web product (Linux/JBoss)
- Developed automated UI tests using QTP

Education

Computer Science (B.Sc), IDC Herzliya

2006 – 2009

Graduated with Excellence (Cum Laude - GPA 90)
